

Yacin Nadji, Ph.D.

Security Researcher

Technical Skills

Programming Languages

Zeek, Python, Common Lisp, Go, Bash.

Software and Techniques

- Large-scale data analysis, network security, network protocol analysis, distributed event-based programming, machine learning.
- Linux, L^AT_EX, Docker, Git, GitLab CI/CD.

Experience

Corelight

Lead Security Researcher (2025) <- Senior (2022) <- Security Researcher (2019)

- Led a cross-functional team that designed and implemented sensor-based anomaly detection engine.
- Designed and implemented inference algorithms in Zeek for:
 - generic bruteforce authentication attacks,
 - domain name generation malware C&C,
 - ICMP tunnels,
 - site local, publicly routable IPv4/v6 local subnets, and
 - vulnerability scanning engines.
- Implemented netflow collector in [Spicy](#).
- Implemented machine learning feature extraction pipeline in Zeek.
- Built CI/CD pipeline for Labs team.
- Contribute open source code to [core Zeek](#) and packages for [detecting emerging threats](#).
- Write technical research blogs [individually](#) and as a [team](#).
- Conduct interviews for Security Research and Data Science teams.

SecurityScorecard

Senior Software Engineer (2019) <- Software Engineer (2018)

- Led hiring and roadmap planning for Attribution team.
- Implemented custom scorecard feature (additional \$1.5MM ARR in its first quarter).
- Designed & implemented related domains filter (50% -> 2% false negative rate) in Spark MLlib.

Talks & Service

- [Integrating Machine Learning Feedback with Suricata](#) (Suricon 2025)
- Hands on Adversarial Machine Learning workshop at [DEFCON](#) and [O'Reilly Live Course](#).
- Program Committee for [AIssec \(2021\)](#), [Deep Learning Security and Privacy \(2022, 2023\)](#), [SATA Workshop @ NeurIPS \(2024\)](#).
- Technical reviewer for [Strengthening Deep Neural Networks](#).
- Volunteer Instructor for Security and AI for the [Algerian American Foundation Summer University \(2023, 2025\)](#).

Education

Georgia Institute of Technology ([Publications](#))

Computer Science, Ph.D., 2015.

Illinois Institute of Technology

Computer Science, B.S. w/ Honors, 2009.
